- (5) A direction given under subsection (1) is not a legislative instrument.

18 Objectives of the Authority in developing or reviewing food regulatory measures and variations of food regulatory measures

- (1) The objectives (in descending priority order) of the Authority in developing or reviewing food regulatory measures and variations of food regulatory measures are:
 - (a) the protection of public health and safety; and
 - (b) the provision of adequate information relating to food to enable consumers to make informed choices; and
 - (c) the prevention of misleading or deceptive conduct.
- (2) In developing or reviewing food regulatory measures and variations of food regulatory measures, the Authority must also have regard to the following:

- (3A) Policy guidelines formulated by the Council for the purposes of paragraph (2)(e) must not be inconsistent with the objectives set out in subsection (1).
- (4) Where the Authority considers that the best available scientific evidence referred to in paragraph (2)(a) is insufficient, the Authority may provisionally adopt sanitary or phytosanitary measures on the basis of available pertinent scientific information. In such cases, the Authority must take all reasonable steps to obtain the information necessary for a more objective risk analysis and a review of the sanitary or phytosanitary measures, to be undertaken within a reasonable period of time.
- (5) For the purposes of this section, a ***sanitary or phytosanitary measure*** means any measure applied:
- (a) to protect animal or plant life or health from risks arising from the entry, establishment or spread of pests, diseases, disease-carrying organisms or disease-causing organisms; or

Part 2 The Authority

Division 2 Food regulatory measures

Section 19

- (6) A policy guideline formulated by the Council for the purposes of paragraph (2)(e) is not a legislative instrument.

19 Notices to be given to the Gene Technology Regulator

If a provision of this Act requires the Authority to give a notice concerning an existing or proposed food regulatory measure to the Gene Technology Regulator, the Authority is only required to give the notice if the food regulatory measure relates to food that is or contains a GMO or a GM product.

Division 3—Forward planning

20 Authority to develop three year plan

- (1) Not later than 30 June in each year, the Authority must develop and publish a three year forward plan for applications, proposals and types of applications and proposals on which it intends to develop standards or variations to standards.
- (2) In developing a three year forward plan, the Authority must consult interested persons.
- (3) The Authority must review and update the plan at least every 3 months.

Part 3—Food regulatory measures

Division 1—Applications for the development or variation of food regulatory measures

Subdivision A—Overview

21 Steps in the consideration of an application

The following is a simplified outline of the procedure for considering an application for the development of a food regulatory measure, or the variation of a food regulatory measure, other than a high level health claims variation.

- | |
|--|
| <p>Step 1. An application is made.</p> <p>Step 2. The Authority decides whether to accept or reject the application. If the application is accepted, the Authority proceeds to step 3.</p> <p>Step 3. The Authority notifies the applicant of acceptance.</p> <p>Step 4. The Authority gives public notice of the application, indicating when the Authority proposes to undertake key steps in considering it.</p> <p>Step 5. The Authority assesses the application.</p> <p>The Authority may, after assessing the application, either reject it or proceed to the next step.</p> <p>If the application is for a new food regulatory measure or a major variation of a food regulatory measure, the next step is step 6.</p> <p>In any other case, it is step 7.</p> |
|--|

Step 6. The Authority calls for public submissions.

Step 7. The Authority prepares a draft food regulatory measure or a draft variation of a food regulatory measure, as the case requires. If the Authority has called for submissions under step 6, the Authority must have regard to the submissions in doing so.

Step 8. If the application is for a minor variation, the Authority calls for submissions from the applicant and appropriate government agencies.

In any other case, the Authority calls for public submissions.

Step 9. If the draft is a draft standard or a draft variation of a standard, the Authority must decide whether to approve or reject it and prepare a report, having regard to any submissions made. If approved, the Authority notifies the Council and the public of the approval and proceeds to step 10.

If the draft is a draft code of practice or a draft variation of a code of practice, the Authority must revoke or vary any existing code or practice and give public notice of its decision. No further steps are taken in relation to measures of this kind.

Step 10. The standard or variation comes into effect after it has been considered by the Council and published.

Subdivision B—Applications

22 Applications

- (1) A body or person may apply to the Authority for the development of a food regulatory measure or the variation of a food regulatory measure.

Section 23

- (2) The application must:
- (a) be in writing; and
 - (b) if the form in which the application is to be made is specified in guidelines made under section 23—be in the form specified; and
 - (c) include all of the information that, under guidelines made under section 23, is to be included with the application; and
 - (d) include each thing that, under guidelines made under section 23, is to be included with the application; and
 - (e) identify the procedure that, in the applicant’s view, applies to the consideration of the application.

23 Application guidelines

Authority may make guidelines

- (1) The Authority may, by legislative instrument, make guidelines:
- (a) specifying the form in which applications for the development of a food regulatory measure, or the variation of a food regulatory measure, are to be made; and
 - (b) specifying the information, or the kinds of information, to be included with such applications; and
 - (c) specifying any thing, or kind of thing, to be included with such applications.
- (2) The Authority may only specify information, or kinds of information, under paragraph (1)(b) in relation to an application if the inclusion of that information, or information of those kinds:
- (a) would enable the Authority to assess the application and develop the relevant food regulatory measure, or the relevant variation of a food regulatory measure; or
 - (b) would enable the Authority to determine whether a charge under section 146 is payable to the Authority in relation to the application.
- (3) The Authority may only specify a thing, or a kind of thing, under paragraph (1)(c) in relation to an application, if the inclusion of that thing, or things of those kinds, would enable the Authority to

assess the application and develop the relevant food regulatory measure, or the relevant variation of a food regulatory measure.

Guidelines not subject to disallowance or sunseting

- (4) Section 42 and Part 6 of the *Legislative Instruments Act 2003* do not apply to guidelines made under subsection (1).

24 Withdrawal of applications

- (1) An applicant may withdraw the applicant's application by giving written notice of the withdrawal to the Authority at any time after the Authority has accepted the application under paragraph 26(1)(a) or 47(1)(a), but before:
- (a) the Authority approves a draft food regulatory measure, or a draft variation of a food regulatory measure, as a result of the application; or
 - (b) the Authority notifies the applicant that the Authority has rejected the application.
- (2) If the Authority receives notice of the withdrawal of an application after the applicant pays a charge under section 146, the Authority must refund to the applicant so much of the charge as is equivalent to the sum paid by the applicant but not expended from the charge, calculated in accordance with the regulations.
- (3) If the Authority receives notice of the withdrawal of an application after public notice of the application has been given under section 28 or 51, the Authority must give public notice that the application has been withdrawn.

Subdivision C—Procedures for considering applications

25 Which procedure is appropriate?

- (1) The Authority must adopt the general procedure in considering an application for the development of a food regulatory measure or the variation of a food regulatory measure, unless:

Part 3 Food regulatory measures

Division 1 Applications for the development or variation of food regulatory measures

Section 26

- (a) the application is one to which Subdivision E applies (application for a minor variation of a food regulatory measure); or
- (b) the application is one to which Subdivision F applies (application for the development of a new food regulatory measure or a major variation of a food regulatory measure); or
- (c) the application is one to which Subdivision G applies (application for a high level health claims variation); or
- (d) the application is declared to be an urgent application for the purposes of this Part under section 95.

Where an application for a high level health claims variation is included in an application for a variation of another kind

- (2) If a person applies for a high level health claims variation and a variation of another kind in a single application, then, for the purposes of this Act, the person is taken to have made an application for a high level health claims variation and a separate application for the other kind of variation.

Subdivision D—General procedure

26 Accepting an application

- (1) The Authority must, within 15 business days after an application is given to the Authority:
 - (a) accept the application; or
 - (b) reject the application.
- (2) In determining whether to accept or reject the application, the Authority must have regard to the following matters:
 - (a) whether the application complies with subsection 22(2);
 - (b) whether the application relates to a matter that may be developed as a food regulatory measure, or that warrants the variation of a food regulatory measure;
 - (c) whether the application is so similar to a previous application or proposal for the development or variation of a food regulatory measure that it ought to be rejected;

- (d) any other relevant matter.
- (3) If an application is rejected because it does not comply with subsection 22(2), the application must be disregarded for the purposes of determining whether a later application or proposal for the development or variation of a food regulatory measure is so similar to a previous application that the later application or proposal ought to be rejected.

27 Notice of acceptance

If the Authority accepts an application, the Authority must notify the applicant immediately in writing:

- (a) that the application has been accepted; and
- (b) of the procedure the Authority will adopt in considering the application; and
- (c) in the case of an applicant who has applied for the development or variation of a standard and on whom an exclusive capturable commercial benefit would be conferred if the standard were made or varied in the manner sought in the application:
 - (i) that the applicant must pay the charge under section 146 in relation to the application or, if the charge is payable in instalments, the first instalment of the charge, within 20 business days after the notification is given; and
 - (ii) that the application will be rejected if the charge, or the first instalment of the charge, is not paid within that period; and
- (d) in any other case—that the applicant may, if the applicant elects to have the consideration of the application expedited, pay the charge under section 146 in relation to the application or, if the charge is payable in instalments, the first instalment of the charge.

28 Public notice of the application

- (1) If the Authority accepts an application, the Authority must also give public notice of the matters mentioned in subsection (2).

Section 28

Content of notice

- (2) The notice must:
- (a) state that the Authority has received an application for the development of a food regulatory measure or the variation of a food regulatory measure, as the case requires; and
 - (b) state the date on which the application was received by the Authority; and
 - (c) state the name of the applicant; and
 - (d) give a summary of the application; and
 - (e) state that the Authority has accepted the application; and
 - (f) identify the procedure that the Authority will adopt in considering the application; and
 - (g) indicate when the Authority proposes to undertake the key steps in that procedure; and
 - (h) state how to obtain further information about the application.

Period within which notice must be given

- (3) The notice must be given:
- (a) if the applicant pays a charge, or the first instalment of a charge, mentioned in subparagraph 27(c)(i) within the period mentioned in that paragraph—within 5 business days after that payment; or
 - (b) if the applicant pays a charge, or the first instalment of a charge, mentioned in paragraph 27(d) within 20 business days after notice is given to the applicant under section 27 (the *early payment period*)—within 5 business days after that payment; or
 - (c) in any other case—within 25 business days after notice is given to the applicant under section 27.

Exclusive capturable commercial benefit—fee not paid

- (4) If an applicant:
- (a) who applies for the development or variation of a standard; and

- (b) on whom an exclusive capturable commercial benefit would be conferred if the standard were made or varied in the manner sought in the application;
- does not pay the charge, or the first instalment of the charge, mentioned in subparagraph 27(c)(i) within the period mentioned in that subparagraph:
- (c) the Authority must reject the application; and
 - (d) the Authority need not give notice under this section.

Fee to expedite consideration paid after early payment period

- (5) If an applicant pays a charge, or the first instalment of a charge, mentioned in paragraph 27(d) after the end of the early payment period, the Authority must, within 5 business days after that payment, again give public notice of the matters mentioned in subsection (2), including an update on when the Authority now proposes to undertake the key steps in the procedure.

29 Assessing the application

- (1) If the Authority accepts an application, the Authority must assess the application.
- (2) In assessing the application, the Authority must have regard to the following matters:
 - (a) whether costs that would arise from a food regulatory measure developed or varied as a result of the application outweigh the direct and indirect benefits to the community, Government or industry that would arise from the development or variation of the food regulatory measure;
 - (b) whether other measures (available to the Authority or not) would be more cost-effective than a food regulatory measure developed or varied as a result of the application;
 - (c) any relevant New Zealand standards;
 - (d) any other relevant matters.

Note: See also section 18, which sets out the objectives of the Authority in developing food regulatory measures and variations of those measures.

30 Preparing a draft variation

- (1) After assessing an application, the Authority must:
 - (a) prepare in writing a draft food regulatory measure or a draft variation of a food regulatory measure; or
 - (b) reject the application.
- (2) If:
 - (a) the Authority prepares a draft food regulatory measure or a draft variation of a food regulatory measure as a result of an application; and
 - (b) the draft measure or draft variation differs from that sought in the application, or was not sought in the application at all; the Authority must give the applicant notice in writing of that fact and state in the notice that the Authority will call for submissions for the purpose of assessing the draft measure or draft variation.
- (3) The Authority must not give public notice under section 31 within 10 business days immediately after notice is given to the applicant under subsection (2) of this section.

31 Calling for submissions

- (1) After preparing a draft food regulatory measure or a draft variation of a food regulatory measure as a result of an application, the Authority must give public notice of the matters mentioned in subsection (2).
- (2) The notice must:
 - (a) state that the Authority has prepared a draft food regulatory measure or a draft variation of a food regulatory measure, as the case requires; and
 - (b) include:
 - (i) a copy of the draft food regulatory measure or draft variation; and
 - (ii) a summary of the results of the Authority's assessment of the application;or state how a copy of those documents can be obtained; and

- (c) call for written submissions, for the purpose of the Authority's consideration of the draft measure or draft variation, to be given to the Authority within the period specified in the notice (the *submission period*).

32 Alternative steps to be followed

- (1) If an application results in the development or variation of a standard, the Authority must follow the steps set out in sections 33 and 34.
- (2) However, if an application results in the development or variation of a code of practice, the Authority must follow the steps set out in section 35.

33 Approving the draft standard or draft variation

- (1) After the submission period, the Authority must:
 - (a) do one of the following:
 - (i) approve the draft standard or draft variation;
 - (ii) approve the draft standard or draft variation subject to such amendments as the Authority considers necessary;
 - (iii) reject the draft standard or draft variation; and
 - (b) prepare a report under this section.

Note 1: The Board must not delegate its powers to act on behalf of the Authority under paragraph (a)—see section 150.

Note 2: The draft does not take effect except in accordance with a notice under section 92—see section 93.

- (2) The Authority must have regard to all submissions made during the submission period in making a decision under subsection (1).
- (3) The report must include each of the following:
 - (a) the reasons for initially accepting the application;
 - (b) a summary of the results of the Authority's assessment of the application;
 - (c) a summary of the submissions received by the Authority in relation to the draft standard or draft variation;

Section 34

- (d) the Authority's response to the issues raised in those submissions;

34 Notifying the Council

- (1) If the Authority approves a draft standard or a draft variation of a standard, the Authority must, within 10 business days after the approval:
 - (a) give the Council:
 - (i) a written notification of the approval; and
 - (ii) a copy of the report prepared by the Authority under section 33; and
 - (b) give public notice of the approval, together with information about where further information about the draft standard or draft variation may be obtained; and

 - (ii) stating that the Council has been notified that the draft standard or draft variation has been approved; and
 - (iii) stating that the Council may request the Authority to review the draft standard or draft variation under Division 3; and
 - (iv) stating where further information about the draft standard or draft variation may be obtained.

- (2) If the Authority has notified the Council under subsection (1), the Council may direct the Authority to give the Council such information as the Council reasonably requires for the purpose of assisting the Council to make a decision about the draft under Division 3.

Note: The process followed by the Council after receiving notification under this section is set out in Division 3.

35 Alternative to steps set out in sections 33 and 34—approving the draft code of practice or draft variation

- (1) After the submission period, the Authority must:
- (a) approve the draft code of practice or draft variation; or
 - (b) reject the draft code of practice or draft variation.

Note: The Board must not delegate its powers to act on behalf of the Authority under this subsection—see section 150.

- (2) If another code of practice would be superseded, in whole or in part, by the Authority's decision under subsection (1), the Authority must:

- (5) The Authority must also give written notice of its decision to the Council.

Subdivision E—Modification of general procedure for minor variations

36 Application of Subdivision

This Subdivision applies to an application for the variation of a food regulatory measure that, if made, would not directly or indirectly:

- (a) impose, vary or remove an obligation on any person; or
- (b) create, vary or remove a right of any person; or
- (c) otherwise alter the legal effect of the measure.

Note: For example, a variation would fall within this class if its only effect would be:

- (a) to correct a typographical error; or
- (b) to update a reference to another document; or
- (c) to change a cross-reference within a food regulatory measure; or
- (d) to omit provisions of a food regulatory measure that have ceased to have effect.

37 Adopt the general procedure with the modifications set out in this Subdivision

The Authority must adopt the general procedure in considering the application, with the modifications set out in this Subdivision.

38 Modification of step set out in section 29

Paragraphs 29(2)(a) and (b) do not apply.

Note: Paragraphs 29(2)(a) and (b) require the Authority to do a cost benefit analysis. This is unnecessary given the minor nature of the variation.

39 Modification of step set out in section 30

Subsections 30(2) and (3) do not apply.

Note: Subsections 30(2) and (3) deal with the case where the draft variation differs from that sought in the application, or was not sought at all.

40 Modification of step set out in section 31

- (1) Section 31 does not apply.
- (2) However, after preparing a draft variation of the food regulatory measure as a result of an application, the Authority must give written notice to the applicant and appropriate government agencies:
 - (a) stating that the Authority has prepared a draft variation of a food regulatory measure; and
 - (b) including:
 - (i) a copy of the draft variation; and
 - (ii) a summary of the results of the Authority's assessment of the application;or stating how a copy of those documents can be obtained; and
 - (c) calling for written submissions, for the purpose of the Authority's consideration of the draft variation, to be made to the Authority within the period specified in the notice (the *submission period*).

41 Modification of steps set out in sections 32, 33, 34 and 35

- (1) Sections 32, 33, 34 and 35 do not apply.
 - (2) However, after the submission period, the Authority must:
 - (a) do one of the following:
 - (i) approve the draft variation;
 - (ii) approve the draft variation subject to such amendments as the Authority considers necessary;
 - (iii) reject the draft variation; and
 - (b) prepare a report under this section.

Note: The Board must not delegate its powers to act on behalf of the Authority under paragraph (a)—see section 150.
 - (3) The report must include each of the following:
 - (a) the reasons for initially accepting the application;
 - (b) a summary of the results of the Authority's assessment of the application;
-

Part 3 Food regulatory measures

Division 1 Applications for the development or variation of food regulatory measures

Section 41

- (c) the Authority's reasons for approving or rejecting the draft variation;
 - (d) a copy of the draft variation.
- (4) If the draft variation is of a standard and the Authority approves the draft variation, the Authority must, within 10 business days after the approval:
- (a) give the Council:
 - (i) a written notification of the approval; and
 - (ii) a copy of the report prepared by the Authority under this section; and
 - (b) give public notice of the approval, together with information about where further information about the draft variation may be obtained; and
 - (c) publish in a generally circulating newspaper, in each State or Territory and in New Zealand, a notice:
 - (i) stating that the draft variation has been approved; and
 - (ii) stating that the Council has been notified that the draft variation has been approved; and
 - (iii) stating that the Council may request the Authority to review the draft variation under Division 3; and
 - (iv) stating where further information about the draft variation may be obtained.
- (5) If the Authority has notified the Council under subsection (4), the Council may direct the Authority to give the Council such information as the Council reasonably requires for the purpose of assisting the Council to make a decision about the draft under Division 3.

Note: The process followed by the Council after receiving notification under this section is set out in Division 3.

Subdivision F—Modification of general procedure for developing new food regulatory measures and major variations

42 Application of Subdivision

This Subdivision applies to:

- (a) an application for the development of a new food regulatory measure; and
- (b) an application for the variation of a food regulatory measure that:
 - (i) involves such scientific or technical complexity that it is necessary to adopt this procedure in considering it; or
 - (ii) involves such a significant change to the scope of the food regulatory measure that it is necessary to adopt this procedure in considering it.

43 Adopt the general procedure with the modifications set out in this Subdivision

The Authority must adopt the general procedure in considering the application, with the modifications set out in this Subdivision.

44 Additional step after step set out in section 29

- (1) The Authority must, after assessing the application under section 29 but before undertaking the step set out in section 30, give public notice of the matters set out in subsection (2).
- (2) The notice must:
 - (a) state that the Authority has assessed the application; and
 - (b) include a summary of the results of the Authority's assessment of the application, or state how a copy of the summary can be obtained; and
 - (c) call for written submissions on matters relevant to the application to be given to the Authority within the period specified in the notice (the *submission period*).

45 Matters to which Authority must have regard in making a decision under section 30

The Authority must have regard to all submissions made during the submission period in making a decision under section 30.

Note: This does not limit the other matters to which the Authority must have regard in making a decision under section 30.

Subdivision G—Procedure for certain variations of the Nutrition, Health and Related Claims Standard

46 Application of Subdivision

This Subdivision applies to an application if:

- (a) the application is made for the variation of the Nutrition, Health and Related Claims Standard; and
- (b) the variation sought is a high level health claims variation.

Note: If an application to vary the Nutrition, Health and Related Claims Standard would not involve a change to the list of high level health claims that may be made under the Standard, the general procedure applies—see Subdivisions D, E and F.

47 Accepting the application

- (1) The Authority must, within 15 business days after the application is given to the Authority:
 - (a) accept the application; or
 - (b) reject the application.
- (2) In determining whether to accept or reject the application, the Authority must have regard to the following matters:
 - (a) whether the application complies with subsection 22(2);

Part 3 Food regulatory measures

Division 2 Proposals for the development or variation of food regulatory measures

Section 55

Step 7. The Authority prepares a draft food regulatory measure or a draft variation of a food regulatory measure, as the case requires. If the Authority has called for submissions under step 6, the Authority must have regard to the submissions in doing so.

Step 8. If the proposal is for a minor variation, the Authority calls for submissions from the applicant and appropriate government agencies.

In any other case, the Authority calls for public submissions.

Step 9. If the draft is a draft standard or a draft variation of a standard, the Authority must decide whether to approve or reject it and prepare a report, having regard to any submissions made. If approved, the Authority notifies the Council and the public of the approval and proceeds to step 10.

If the draft is a draft code of practice or a draft variation of a code of practice, the Authority must revoke or vary any existing code of practice and give public notice of its decision. No further steps are taken in relation to measures of this kind.

Step 10. The standard or variation comes into effect after it has been considered by the Council and published.

Note: Division 2A deals with variations by the APVMA of the Maximum Residue Limits Standard.

Subdivision B—Proposals

55 Proposals

- (1) The Authority may, on its own initiative, prepare a proposal for the development or variation of a food regulatory measure.
- (2) The proposal must be in writing.

56 Abandonment of proposals

- (1) The Authority may abandon a proposal at any time.
- (2) However, if the Authority abandons a proposal after public notice has been given under section 58 or 77, the Authority must give public notice of the matters mentioned in subsection (3).

Subdivision C—Procedures for considering proposals

57 Which procedure is appropriate?

The Authority must adopt the general procedure in considering a proposal for the development of a food regulatory measure or the variation of a food regulatory measure, unless:

- (a) the proposal is one to which Subdivision E applies (proposal for a minor variation of a food regulatory measure); or
